

Inception Design Acceptable Use Policy

COMMITMENT TO YOUR PRIVACY

This site is owned and operated by Inception Design. Your privacy on the Internet is of the utmost importance to us. At Inception Design, we want to make your experience online satisfying and safe.

Because we gather certain types of information about our users, we feel you should fully understand the terms and conditions surrounding the capture and use of that information. This privacy statement discloses what information we gather and how we use it.

INFORMATION INCEPTION DESIGN GATHERS AND TRACKS

Inception Design gathers two types of information about users:

* · Information that users provide through optional, voluntary submissions. These are voluntary submissions to receive our electronic newsletters, to participate in our message boards or forums, to email a friend, and from participation in polls and surveys, or through other voluntary methods where information of a personal nature is voluntarily offered to Inception Design:

* · Information Inception Design gathers through aggregated tracking information derived mainly by tallying page views throughout our sites. This information allows us to better tailor our content to readers' needs and to help our advertisers and sponsors better understand the demographics of our audience. Because Inception Design may derive partial revenue from sponsorships and advertising, providing such aggregated demographic data is essential to keeping our service free to users.

Children

Consistent with the Federal Children's Online Privacy Protection Act of 1998 (COPPA), we will never knowingly request personally identifiable information from anyone under the age of 13 without requesting parental consent.

Usage tracking

Inception Design may track user traffic patterns throughout all of our sites. However, we do not correlate this information with data about individual users. Inception Design does break down overall usage statistics according to a user's domain name, browser type, and MIME type by reading this information from the browser string (information contained in every user's browser). Inception Design sometimes tracks and catalogs the search terms that users enter in our Search function, but this tracking is never associated with individual users. We use tracking information to determine which areas of our sites users like and don't like based on traffic to those areas. We do not track what individual users read, but rather how well each page performs overall. This helps us continue to build a better service for you.

Cookies

We may place a text file called a "cookie" in the browser files of your computer. The cookie itself does not contain Personal Information although it will enable us to relate your use of this site to information that you have specifically and knowingly provided. But the only personal information a cookie can contain is information you supply yourself. A cookie can't read data off your hard disk or read cookie files created by other sites. Inception Design uses cookies to track user traffic patterns (as described above). Our advertising system may deliver a one-time cookie to better track ad impressions and click rates. You can refuse cookies by turning them off in your browser. If you've set your browser to warn you before accepting cookies, you will receive the warning message with each cookie. You do not need to have cookies turned on to use this site. However, you do need cookies to participate actively in message boards, forums, polling and surveys.

USE OF INFORMATION

Inception Design uses any information given by our users to enhance their experience in our network of sites, whether to provide interactive or personalized elements on the sites or to better prepare future content based on the interests of our users. As stated above, we use information that users provide in order to send out electronic newsletters and to enable users to participate in polls, surveys, message boards, and forums. We may send out newsletters to subscribers on a regular schedule (depending on the newsletter), and occasionally send out special editions when we think subscribers might be particularly interested in something we are doing. Inception Design never shares newsletter mailing lists with any third parties, including advertisers, sponsors or partners. When we use tracking information to determine which areas of our sites users like and don't like based on traffic to those areas, we do not track what individual users read, but rather how well each page performs overall. This helps us continue to build a better service for you. We track search terms entered in Search function as one of many measures of what interests our users. But we don't track which terms a particular user enters. Inception Design creates aggregate reports on user demographics and traffic patterns for advertisers, sponsors and partners. This allows our advertisers to advertise more effectively, and allows our users to receive advertisements that are pertinent to their needs. Because we don't track the usage patterns of individual users, an advertiser or sponsor will never know that a specific user clicked their ad. We will not disclose any information about any individual user except to comply with applicable law or valid legal process or to protect the personal safety of our users or the public.

SHARING OF THE INFORMATION

Inception Design uses the above-described information to tailor our content to suit your needs and help our advertisers better understand our audience's demographics. We will not share information about individual users with any third party, except to comply with applicable law or valid legal process or to protect the personal safety of our users or the public.

SECURITY

Inception Design operates secure data networks protected by industry standard firewall and password protection systems. Our security and privacy policies are periodically reviewed and enhanced as necessary and only authorized individuals have access to the information provided by our customers.

OPT-OUT POLICY

We give users options wherever necessary and practical. Such choices include:

- Opting not to register to receive any electronic service.
- Opting not to participate in certain interactive areas, which completely alleviates the need to gather any personally identifiable information from our users

Though these are both good solutions, if you do not wish to comply with this Privacy Policy, it is advised that you leave this site immediately and do not return.

YOUR CONSENT

By using this site, you consent to the collection and use of this information by Inception Design. If we decide to change our privacy policy, we will post those changes on this page so that you are always aware of what information we collect, how we use it, and under what circumstances we disclose it.
